[[MONTH DAY, YEAR]]

Hiring Team, [[COMPANY]] — [[TEAM / DEPARTMENT, e.g. Applied AI]] — [[CITY, STATE or “Remote”]]

Dear [[HIRING MANAGER NAME, or “Hiring Team”]],

[[COMPANY]] is [[ONE-SENTENCE STATEMENT OF THE COMPANY’S CORE BET OR PROBLEM SPACE — e.g. “betting that customer-facing AI agents have to be reliable enough to act, not just chat”]]. That is the exact problem I have spent the last year building in, and it is why I am applying for the [[ROLE]] role. [[ONE SENTENCE TYING YOUR SINGLE STRONGEST RELEVANT EXPERIENCE TO THAT PROBLEM.]]

[[PROOF STORY — state the PROBLEM you faced, the METHOD you used, and a MEASURABLE RESULT. e.g. “At New York Life, 12,000 customer-service reps were buried in claims data fragmented across SharePoint, Confluence, Jira, and mainframe systems. I built an AI voice-and-text agent grounded in 13,000 internal documents so reps had one trustworthy place to act — and stood up the knowledge base that made it possible.”]]
[[OPTIONAL SECOND PROOF LINE WITH ANOTHER METRIC, e.g. a RAG pipeline shipped at Lykke, or a 90% manual-work reduction at Samaritan Scout — only if it stays under the word budget.]]

Beyond any single project, my real edge is how I work. I am fast and fluent with modern AI tools and use them to ship production systems rather than demos, and I pick up unfamiliar stacks and domains quickly — this year alone I moved from enterprise insurance automation to RAG infrastructure to CUDA robot motion planning without losing momentum. As [[COMPANY]] grows, that is exactly the kind of leverage I bring: I can help the team move faster today and expand into new problems tomorrow, because building with AI is my default mode, not a skill I am still learning. [[ONE SPECIFIC, RECENT FACT ABOUT THE COMPANY — a launch, funding round, customer, or roadmap direction — AND ONE HONEST SENTENCE ON WHY IT MAKES THIS THE RIGHT TIME FOR YOU TO JOIN.]]

I would love to help [[COMPANY]] [[BUILD / SHIP / EXPAND — the specific thing the team is working on]]. Thank you for your time and consideration — I would welcome the chance to talk.

Sincerely,
Akash Dubey
