Education

Rutgers University Honors College, School of Arts and Sciences — New Brunswick, NJ
Bachelor of Science in Computer Science and Mathematics — *Anticipated May 2028*

- **GPA**: 3.95/4.0 | SAT: 1580 | Dean's List. **Coursework**: Systems Programming, Computer Architecture, Algorithms, Data Structures, Stochastic Processes, Math Theory of Probability.

Technical Program & Product Experience

Scarlet Sync — New Brunswick, NJ
Founder — *Jan 2025 – Present*

- Led end-to-end development and launch of a Rutgers academic planning platform used by thousands of students for degree, schedule, and course planning across web, ChatGPT, Claude, and iOS.
- Defined the product architecture for a production AI assistant with streaming tool-calling and grounded retrieval over schedules, degree plans, and student profile context.
- Built a Python/LLM data pipeline that converted unstructured legacy university data into reliable product features, indexing 2,500+ classes and 500+ degree programs for real-time querying.

New York Life Insurance — New York, NY
Software Engineer Intern, TDAV Team — *May – Aug 2026*

- Delivered an AI text and voice agent for insurance claims workflows serving clients and 12,000 Customer Service Representatives on AWS, integrating internal services, knowledge, and forms.
- Built multi-agent systems spanning AEM website delivery, Pega case automation, Tungsten document processing, and mainframe modernization, translating business rules from COBOL and low-code systems into technical workflows.
- Consolidated 13,000 documents from SharePoint, Confluence, Jira, and the intranet into a shared knowledge base, making fragmented requirements and business logic accessible to AI and human users.

Rutgers Economics Labs — New Brunswick, NJ
President (formerly Research Director, Team Lead) — *Oct 2024 – Present*

- Lead quantitative research engagements for partners including NJDOL, NJDEP, NJBPU, Federal HUD, and the U.S. Census Bureau, using Python/R analysis to translate complex data into stakeholder decisions.
- Led a five-person team evaluating New Jersey's Urban Enterprise Zone program for the NJDCA, managing the analysis of complex Census data and delivery of client findings.
- Architected RAIL, an automated research pipeline using data ontologies and coding-agent workflows to collect, organize, analyze, and synthesize economic data into auditable insights.

Lykke — San Francisco, CA
Founding Software Engineer — *Sep 2025 – Present*

- Built core AI product workflows that ingest Canvas courses, assignments, announcements, notes, and documents into class-scoped knowledge bases for contextual chat and study generation.
- Created a distributed course-wiki engine that crawls sources, synthesizes and embeds structured content, and runs tenant-isolated background builds via SQS, MongoDB leases, Redis, and AWS ECS.

Samaritan Scout — Cranford, NJ
Full Stack Engineer Intern — *May 2023 – Aug 2025*

- Developed an AI extraction system for 100,000+ nonprofit websites, reducing manual data-entry time by over 90%, and a React/TypeScript/PostgreSQL search product indexing 35,000+ volunteer opportunities.

Awards & Skills

Program & Product: Product Architecture, Full Product Lifecycle, Data Analysis, Cross-Functional Delivery, Customer-Focused Development
Technical: Python, TypeScript, SQL, Java, C++, R, Git; AWS, PostgreSQL, MongoDB, Redis, LLMs, RAG, AI Agents, MCP
Awards: 8090 AI Top Coder (5th), Rutgers Shark Tank (2nd and 3rd), ASA Fall Data Challenge (Top 3), NSF I-Corps.
